**Millions Spent For
Car Operation
Locally**

(Special to the Avalanche)

New York, Nov. 11 — Just how costly a monster is your automobile? How much does the average Crawford County driver spend a year to keep his car going? Few owners can answer these questions off hand. But from all indications, they are giving more than the usual amount of consideration to such costs this year.

Data on car maintenance and operating expenses, prepared by the American Automobile Association for various parts of the country, show that the typical motorist, who owns a popular-price car and travels the average 10,000 miles a year, spends \$1,004. That is \$82 more than it cost him two years ago.

In Crawford County, under these average conditions and on the basis of the passenger cars registered locally, car owners spent a total of \$585,000 in the field in the past year.

Breaking down car operation cost into its component parts, the AAA finds that the largest fixed item is depreciation, averaging \$574 a year. The next largest is insurance, \$129. This is for property damage and liability coverage (\$25,000 and \$50,000) and for fire and theft. License and registration fees make up the balance.

In short, it shows that the average driver must pay \$635 a year in fixed charges, whether he uses his car or not. In other words \$1.74 a day.

The variable costs—for gas, oil, tires and maintenance—amount to 3.69 cents a mile.

Applying this AAA data, drivers in Crawford County who drive 10,000 miles spend a total of 10 cents a mile.

Those who use their car to a greater extent pay less on a mileage basis, since the fixed charges remain the same. Conversely, those who travel less than the average amount spend more per mile.

For the 20,000-mile operation there are the fixed charges of \$514

and variable costs of \$738, which brings the rate down to 7.0 cents a mile.

For 5,000 miles a year, the total cost is \$619 or 16.4 cents a mile. The increase in the amount auto travel has been a boon to the Crawford County filling stations. Their receipts last year came to \$992,000, according to Sales Management.

**K. OF C. HOLDS
MEMORIAL SERVICE**

A Memorial Service for the deceased members of the Knights of Columbus Council No. 1982 was held at St. Michael's Catholic Church, Roscommon, November 11th. Reverend Father W. Grill, the Council Chaplain, officiated at the Mass and the members received Holy Communion in a 1949.

There will be another memorial service at the next Program and Entertainment meeting, Nov. 18th under the leadership of Ray Williams, Council Activities Chairman.

At the regular meeting on Nov. 11th Ray Williams gave a report on the Columbus Day Program held on Oct. 21st. He stated that although the attendance was small, due to the opening of pheasant season, they all enjoyed the fine supper and the color slides of the Grand Canyon.

Larry Eastley, Lecturer, entertained the members with a color slide movie of the paintings of Michaelangelo that are on the walls and ceiling of the Sistine Chapel in Rome.

A new member of this Council, A. J. Michaud, was a lucky contestant in the Boysville Fall Festival drawing of door prizes. He was awarded a wrist watch.

A light lunch was enjoyed at the close of the meeting.

Combat Useless Gov. Spending Now

In view of Vice President Nixon, military preparedness the "must always take priority over the understandable desire to reduce our taxes." Practically everyone in the country will agree with that — especially in the light of Soviet rocket achievements.

However, this certainly does not mean that there is no longer any point in talking about government economy. It should, instead, mean that every possible frill and non-essential in government is now to be cropped down to the root. And an excellent place to start would be in government activities in the field of commercial business. Most of these run at big losses. If they were returned to private enterprise, where they belong, all the financing would come out of private capital and private savings — and, to frost the cake, government would get big new tax revenues that could prevent tax increases or be the basis of tax reductions.

Where There Is No Parking Problem

Adjacent to American automobile factories there are always big parking lots. And these lots are loaded with cars belonging to the workers.

But, as William Henry Chamberlin points out in a Wall Street Journal article, there are no parking problems around the auto factories of communist countries. The reason is found in the wage-price relationship. As an example, he cites the principal car produced in Communist Poland, the Warszawa. At its state-fixed price, it would take the average worker five years to earn enough to buy one, if he put aside every cent of his earnings for that purpose. And the fixed price is way below the going black market price.

This is what total government does to the masses of workers — the people it is supposed to serve and revere.

It forces them down to a subsistence basis of living — and keeps them there.

A Strange Inconsistency

Not in living memory has there been so much agitation over civil rights as there is now. Yet, as David Lawrence points out in one of his columns, "strange inconsistencies emerge." For instance, two Senators suggested that President Eisenhower should "personally take those colored children by the hand and lead them into school" at Little Rock. "But," says Mr. Lawrence, "did any of the so-called liberals ever suggest or would they venture to recommend that the president take workingmen by the hand and lead them into plants and factories where their right to work — a basic constitutional right — is denied them?"

In major industry today no man can hold a job and earn a living unless he joins and pays dues to a union. It makes no difference whether he wants to join or not. It makes no difference whether he agrees or disagrees with the policies and actions of the union. It makes no difference whether he regards the leaders and officers of the union as good men or as scoundrels. Whatever the case, the union has an absolute monopoly power to compel obedience, on pain of discharge and unemployment.

The right to work is as basic as any right — free speech, freedom of assembly, equality under the law, or the others. Without the right to work, the force of all the other rights are diminished. When will the right to "join or not join" be established once and for all and the union's power to enforce a variant of involuntary servitude on labor be ended?

Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE FILES OF THE AVALANCHE OF 23 YEARS AGO

November 22, 1934

Detroit newspapers report the warmest November since 1909. Here in Grayling it has been so warm that very little heat is necessary either day or night, and open dogs are not uncommon. The thermometer stood at 56 above at noon Wednesday.

Simplicity was the keynote in the wedding of Miss Dagnar Juhl, daughter of Rev. and Mrs. Hans Juhl and Mr. Floyd SanCarter, which took place last Thursday afternoon. The hour for the ceremony was set for 3 o'clock and was solemnized in the Danish Lutheran Church, the bride's father, pastor of the church, officiating. Miss Lois Sorenson and brother Robert Sorenson were the only attendants and just the immediate family witnessed the ceremony. A wedding dinner was served to the bride and groom and the evening the bride and groom received their friends at the Juhl home. Both Mr. and Mrs. SanCarter are favorably known and popular among their friends, and have the best wishes of hosts of friends. The bride is a graduate of Grand View College at Des Moines, Iowa, and completed a year's course at the Jackson Commercial College. The groom is a graduate of Grayling High School of the class of 1933 and was a member of the basketball team during his high school years.

Born to Mr. and Mrs. Dominic Galvani at Mercy Hospital Monday a son, Walter.

The local state liquor store sold over \$500 worth of liquor here Saturday last. For hunting purposes, of course.

Miss Veronica Lovely and Miss Sally Leech of Mt. Pleasant visited at her home here over the weekend.

Mrs. Emil Giegling entertained her bridge club at her home Wednesday afternoon. High honors were won by Mrs. Frank Bond.

Miss Dorothy Roberts is taking care of the clerical duties in the school office filling the position caused by the resignation of Mrs. Dagnar SanCarter.

Emil Niederer is building a new icehouse at School Section Lake. It will be 100 x 50 feet in size and 12 feet high. This will replace those formerly in use that have outworn their usefulness.

Junior Trudeau, young son of Mr. and Mrs. A. J. Trudeau, accidentally broke his left arm near the elbow Wednesday evening while scuffling with another young boy. The fracture is close to the elbow, necessitating a cast to hold the parts in position.

A copy of the Olivet College Echo of November 14th contained an article about the Phi Alpha fraternity fall party, of which we understand, Charles Wylie is the president, and tells about a specially numbered being rendered by Gail Welsh, of Grayling. To quote it says "At the intermission Lyle Wylie, chairman of the party, introduced three specialty numbers: Jane Rundman and Gail Welsh each presented 'two tap dance numbers that were very pleasing to the audience. These two girls are new co-eds on the campus and their pleasant numbers were a surprise to most of the students present." Charles Wylie says in a recent letter that "Gail, altho a little girl, is big in the eyes of the school."

Fire from a spark from the stove, according to members of the fire department, set fire to the contents of a woodbox in the H. Peterson house occupied by Mr. and Mrs. Foryst Barber, Monday, doing little damage except to blacken the wall by smoke and to burn a few clothes hanging on the wall. Another fire occurred at about 3 o'clock this morning at the Arthur Clough home across from the South-side grocery. It is reported that the electric wiring was completely burned out within the house. Otherwise little damage was done.

Bud Hunter has returned to his home in Jackson after several

days spent here, the guest of Miss Eleanor Gorman.

The Crawford County game refuge in Crawford County was the first deer refuge established in Michigan. It was created in 1916. Michigan now has twelve game refuges.

Mr. and Mrs. Harold Skingley have been having as guests for a few days Mr. and Mrs. Don Layman of Mancelona, who are en route to Nebraska for the winter.

Clayton Straehly is taking care of the Village night marshal duties. Bert DeFuria being in Mackinac taking the place of an employee at the M. C. Roundhouse there as boilermaker.

John W. Libbeck, of Detroit, spent a few days here hunting deer last week, a guest at Camp AuSable where he was the former popular commanding officer. He was accompanied by Capt. Claude Daugherty.

Many of the local nimrods didn't seem to have any trouble filling their deer licenses, several containing home the first day with their buck. However Mrs. Eugene Papendick and Mrs. David Kniff are the only lady hunters we have learned of who were lucky. Among others who are enjoying venison are County Clerk Axel Peterson, Eggie Bugby, Dwight Mills, Walter Smith, Gale Clise, R. A. Wright, Maurice Gorman, Farrell Gorman, Burwell Griffith, Carl Jensen, Sherman Reava, Herbert Parker, Clarence Gross, Floyd McClain and Grant Thompson.

The National Zoological Park in Washington, D. C. has three young beaver which claim Michigan as their native home. They were live-trapped at Wilderness State Park, Emmet County, according to the Department of Conservation.

Mrs. Anna Bennett has moved from Cedar Street into the home she recently purchased on Peninsular Avenue.

Mrs. Harold Tubbs and Miss Grace Nelson are visiting in Lansing for a few days, having accompanied the former's father-in-law home after the latter had been here deer hunting. Mr. Tubbs was lucky to bag his deer early in the season.

Fred Bloetscher and party of friends are returning to Detroit today after being here since Sunday deer hunting and staying at the former's cabin on the river.

Mrs. Dolph SanCarter entertained a large number of relatives and friends at her home Friday evening at a miscellaneous shower in honor of Mrs. Floyd SanCarter.

Mrs. Oscar Borchers and Mrs. Holger Schmidt were hostesses at a pleasant party Tuesday evening of last week in honor of Mrs. Frank Schmidt. Sewing was in order for the evening and the guest of honor was showered with many nice gifts.

46 YEARS AGO

November 23, 1911

Lee Boer of Beaver Creek tracked another bear from that place to Higgins Lake last Saturday and was getting up pretty close to bruin when he saw two hunters coming toward him and called to warn them of their danger just in time to give them the chance to shoot as the bear was nearly upon them. It was a black bear weighing over 400 pounds.

A large timber wolf was killed by a gentleman named Flanner at O. F. Barnes' ranch at South Branch last week Tuesday. They said that this was a fine specimen and probably the only wolf in this county. The bounty on these is county.

B-58 BUICK

Now you can Switch the Pitch a Million Ways

FLIGHT PITCH DYNAFLOW* — last word in travel with your wheels on the ground

Maybe you've felt smooth transmissions before. Maybe you've had obedient response before. But take it from us — you have never in all your born days known anything like this Buick's Flight Pitch Dynaflo!

This one switches the pitch a million ways — automatically, smoothly, thrillingly.

Thanks to a new infinite-pitch stator, you get the most efficient ratio of engine power to rear-wheel turning on the American scene today.

The result: an exuberant feeling of aliveness — a new sense of command unlike anything you've known before.

But there's far more than brilliant performance in this '58 Buick. It embodies more aircraft principles than any other car yet built. It carries a new excitement in styling — a joyous new comfort in travel — a new mindlessness to handling — and the solid satisfaction of a new standard of Buick quality.

Want to hear more? See more? Do more?

Drop in and guest-drive the glamorous B-58 Buick today.

*Flight Pitch Dynaflo standard on LIMITED and ROADMASTER 70, optional at extra cost on other Series. Air-Polse Suspension optional at extra cost on all Series.

New Face of Fashion — From the new Dynaflo grille to the new hood, tall tower, this is the freshest style, fashion in years — the look of flight on wheels.

New Miracle Ride Plus Buick Air-Polse Suspension — To the outstanding Buick ride-engineering comes the new marvel of a ride on 4 columns of air. Loveliest, smoothest, most luxurious ride you've ever known.

New B-12000 Engine — As advanced as today's fuels will let auto engineering go — with Buick's new Quadrajet carburetion, up to 10 to 1 compression, now brilliantly responsive power.

New Air-Cooled Aluminum Front Brakes — "Air conditioned" by 45 radial fins, these extra-powerful aluminum brakes give smoother, more positive stopping and longer lining life. (Standard on most models.)

BROWNIE SCOUTS

Twenty Brownie Scouts were called to order Nov. 12 by their president Sherry Montschau, singing "For My Money." "My Money" was sung very softly, followed with "The Lord's Prayer." The girls were then taught a new song by their leader, "Tell Me Do You Know Where God Lives?"

Several girls worked on their Dot and Dot books. 2 tables of Old Maid followed. Sherry Montschau and Sandy Middleton served. Gayle Post won first prize in the cookie sale. The girls had a second and Beverly Demotes third.

We had order and a wonderful time in the meeting. Due to deer season we will not have any meetings the next two weeks.

MEMORIES ARE MADE OF THIS

Thanksgiving Day was more than turkey, pumpkin pie, nuts and sweets; it was a family day... one for reunion, for prayer and feasting together. However, whenever folk do get together for feasting, we know that good food — quality food — is of prime importance. And, we at Black & White feel that no sale is complete until the meal is eaten and enjoyed.

MAKE A WISH

Think of Thanksgiving and you think of turkey. Think of turkey and you're apt to think of that perennial custom of wishing on the wish-bone.

Much of Thanksgiving hasn't changed. But, thanks to trucks, the kind and character of the various foods that make up the typical Thanksgiving dinner have changed — and for the better of course.

Turkey is still the main dish — but it's tastier and more tender today. Vegetables are fresh or fresh frozen — hence much more flavorful. There's a crisp tossed salad and fresh fruit "out of season." And for dessert — the choice is wide and the quality high.

All this has been made possible largely by the facilities of modern truck transport. Trucks bring you everything you eat, when you use — and they'll help make the "eat-in" day in your year a happy one for most Michiganans. Just sit back and make a wish — and trucks will make it true.

YEAR END TAX TIPS

How To Plan Federal Income Tax Deductions

This is one of a series of four articles on federal income taxes. The articles are based on information provided by the American Institute of Certified Public Accountants and the Michigan Association of Certified Public Accountants.

By waiting until after the first of the year to decide whether to itemize your deductions or take the standard 10-per cent deduction, you run the risk of losing your greatest tax-saving opportunity.

When you are forced to take the standard deduction because your deductible expenses are less than 10-per cent of your adjusted gross income, you literally "waste" your expense deductions, for tax purposes. Don't let this happen to you every year. Plan your expense outlay so that you can get the optional 10-per cent deduction occasionally. This can be done by pyramiding two years of actual expenses into one.

For example, assume that you expect to have an adjusted gross income of \$7,000 for this year and actual deductible expenses of about \$600—or \$100 less than what you would be entitled to deduct if you took the standard 10-per cent deduction. Not included in your actual expense estimate, however, is \$250 in state taxes and \$100 in home loan interest charges that will have to be paid in 1958 but which can be paid in advance.

Beat the Standard Deduction
If you act quickly and pay these expenses before December 31, you can bring your total allowable deductions for 1957 up to \$950. By itemizing deductions this year and taking the standard deduction next year—when your actual expenses should be somewhat less because of what you have prepaid—your total deductions for both years will be approximately \$1,400. Had you taken the standard 10-per cent deduction in both years, the total would be only about \$1,400.

A salaried worker who has difficulty finding enough deductions to make itemization worthwhile might consider carrying the pyramid plan one step further. He could set up a system of "lending" and "borrowing" year-end items that would make it possible for him to throw three years of deductible expenses into one.

Timing Deductions
You can begin your own three-year pyramid by postponing payment on as much 1957 deductible expense as possible and planning to take the standard deduction on this year's return. The expenses you have postponed—or "loaned"—will increase your 1958 deductions, and in the final months of 1958 you can "borrow" from 1959 by speeding up the payment of deductible items.

As a result of your pyramiding, you maximize your expenses for 1958 (when you should be able to

beat the standard deduction by itemizing), and minimize your deductible items for 1957 and 1959 (when you will take the standard deduction and waste your actual expenses). The general rule to follow when you are trying to make the most of your actual expenses is to keep them as high as possible in the years in which you take the standard deduction and pyramid them as much as possible in the years in which you itemize expenses.

Pyramid Medical Expenses
Most taxpayers need look no further than their family medical bills to find a deductible expense that can be pyramided to gain a welcomed tax advantage. The section of the tax law governing the deductibility of medical expenses states that unless you or your wife will be 65 years old by January 1, 1958, you may deduct only those medical expenses for 1957 in excess of 3 per cent of your gross income. If you find that you are near or over the 3 per cent minimum and you are going to itemize deductions this year, you should pay as many of your medical bills as possible before December 31. And since medical expenses can be deducted only in the year paid (but cannot be prepaid), you might even consider speeding up and paying for the dental work, eye examinations and general physical check-ups your family will otherwise be having in the early part of 1958.

Taxpayers who had low medical expenses for 1957 should reverse this procedure, postponing the payment of their year-end medical bills until after the first of the year. In this way, they may be able to "borrow" the minimum requirement in 1958 and to gain a benefit from a payment that would otherwise be lost on their 1957 return.

Plan Premium Payments

The premiums you pay on your health, accident and hospital insurance policies can be deducted as a medical expense—so plan your payments accordingly. To give you greater flexibility in the shifting of medical deductions from one year to the next, you might arrange to have these premiums fall due in January.

SEN. POTTER REPORTS...

From Washington

November 11, 1957
MICHIGAN'S FIRST WHIFF of the legislative stew cooking inside the Labor Department came last week when Secretary of Labor James Mitchell appeared as special guest on my regular radio and television reports.

I interviewed the Secretary on just what he will recommend to Congress in 1958 to protect union members against the type of abuses revealed by the current labor-management racketeers. It's important that the offenders who have been paraded before the television cameras represent a mere handful of the 250,000 responsible union members in this country. Jim Mitchell and I agree, however, that working men and women must be protected from racketeers. Here are just three important legislative recommendations which the Labor Department will make to Congress:

should be protected by public disclosure of those finances.

The right of union members to elect officers by secret ballot should be written into law.

The practice of "blackmail" picketing — where workers who are not members of a plant's union engage in picketing that plant — should be curbed.

A NEW POSTAGE STAMP commemorating the dedication of the Mackinac Straits Bridge will be issued in June. A little over a year ago, on October 23, 1956, I presented this idea to the Post Office Department. As one who has worked hard for the Mackinac Bridge stamp, it is a great pleasure to know that we'll be pasting those colorful squares on our letters within a matter of months in recognition of this tremendous achievement.

UPPERMOST need in the Upper Peninsula is the need for gas. The new Straits Bridge opens the way for an economic boom, but a vital ingredient of such growth is plentiful fuel to stimulate industry in the UP. Lumber, iron, copper, hardwood, softwood and a productive labor force abound in Michigan's scenic north; but natural gas is the necessary key to open the jackpot of potential wealth. Last week I urged the Chairman of the Federal Power Commission to approve a natural gas supply for the UP, and to do so quickly. I pointed out that the UP's future growth and the welfare of its people hinges in large measure on a supply of the precious fuel. I expect FPC action soon.

THUNDER MOUNTAIN, a hill of sand 125 feet high, is a link in the dune chain along Lake Michigan's southeastern shore line. Its name stems from the low, rumbling sounds that old-timers said could be heard from the dune peak. One unconfirmed theory has the thunder coming from caves below the water line which serve as sounding boards for the roaring waves.

Best wishes.

MANY WAYS TO COOK YOUR VENISON

With deer season here, you may be having venison for some meals, says Jane W. Venable, Kalamazoo-Crawford Home Demonstration Agent.

Venison is one of the most highly prized of all wild game. If it is properly dressed and cared for in the woods by the hunter, it is free from objectionable and so-called "game" flavors.

In cooking, it shouldn't be necessary to attempt to conceal the flavor of venison. Its characteristic flavor seems to concentrate in the fat and if strong, trimming away of the excess fat will help.

Venison is a dry meat and is improved by addition of suet, butter or other fat when using dry heat methods of cooking like roasting, broiling and frying.

Like beef and lamb, venison has some tender cuts and some less tender cuts. Tender cuts may be cooked by dry heat, but less tender cuts need moist heat. Bacon, vegetables or fruit juices may be used to moisten the meat for different flavor. Spices like bay leaf, thyme, garlic, or savory may be added to suit the family tastes.

For the less tender round steak you might like to try venison swiss steak. Start with a 1 1/2 pounds round steak cut about 1 1/2 inches thick. Flour both sides and season with salt and pepper. Melt a small amount of fat in the skillet and brown the steak at a low temperature as too much heat toughens meat or other proteins.

When the steak is brown on both sides add 1 medium stalk celery, diced, 1 cup tomatoes and 2 tablespoons Worcestershire sauce. Cover tightly and cook in medium oven 350 degrees or over low flame on top of the stove until tender about 1 1/4 hours.

Remove meat to platter and

make gravy from drippings in the pan. Serve with baked potatoes.

If you would like other recipes for cooking and serving venison, call the County Extension Office, Alpine 8-5181, or write, and ask for the bulletin "Venison."

**MORE THAN TWICE
AROUND THE WORLD**

AND IT DROVE EVERY INCH OF THE WAY!

We knew this car was tough.

We designed it that way.

That's why we weren't afraid to give Plymouth the toughest test run of all time... with all America as the "track."

We didn't coddle this Plymouth. Didn't orate it and ship it carefully from place to place. Instead, we aimed it out of Los Angeles one misty morning and sent it through a course that ran 58,000 miles through 37 states.

The time limit? Only 88 days.

A thousand miles a day!

The equivalent of 6 years' driving crammed into little more than 8 weeks!

Three times this Plymouth crossed the Rockies. Three times it wound its way up and down across the country... passing through more than 1200 cities and towns. Whipping over turnpikes... creeping through city traffic... arrowing down super-highways... feeling its way through 500 miles of rutted detours. And when the drivers turned the key to end the marathon, it still looked, ran and rode like new.

This is what lasting value really means. The ability to take everything that American roads and weather can dish out — and come up grinning. Why don't you give Plymouth a test drive yourself — today? You'll see what we mean.

That's the Plymouth "track"... and just look at that route! Every possible road and weather condition. Plymouth ran every inch of that murderous route 3 times in just 58 days. What greater proof of lasting, built-in staminal!

Michigan Experience Proves

LOW-COST SOIL-CEMENT WILL ANSWER YOUR ROAD PROBLEMS

There's a new economical, easy way to end the problems of dusty, rutted gravel roads or asphalt roads that break up every spring and need constant patching.

Soil-cement base construction provides a durable, all-weather road which is low in cost and requires only minimum maintenance. As its name implies, this type of road is built simply by compacting soil, cement, and water, producing a hard concrete-like base suitable for light-traffic-trunklines and county roads. The base actually gets stronger with age!

Soil-cement already is proven in Michigan. Genesee County, for example, has 115 miles of soil-cement roads giving excellent service. Public approval is enthusiastic. Huron, Macomb, and Oakland Counties also have successfully tested soil-cement.

Soil-cement roads are quickly built. Traffic can immediately use a soil-cement road without detour delays. Up to 2.5 miles have been built in a single day in Michigan!

Ask your county road engineer about soil-cement and write for free information to

TOO LITTLE, TOO LATE is the way we Dodge dealers feel about competitors' efforts to match the Swept-Wing 58. They lowered the roof some, but left the sides high. Their windshields got smaller while ours got bigger. So much for styling. Then, for another important comparison, take ride. Here's Dodge with Torsion-Air suspension that just about everybody admits is the greatest advance in sway-free, dip-free, silent going that any car offers. So what do these other cars do? They borrow an air suspension system that's been used in buses for two years! (Costing well over \$100.00 extra.) And most of 'em that's been used in buses for two years! (Costing well over \$100.00 extra.) And most of 'em still don't have push-button driving—much less Dodge TorqueFlite—the proven automatic transmission. If you're a little disappointed in the '58 version of your car, come on in and see our Swept-Wing 58. The others are catching on—but they can't catch up.

"THE STUCK-UP APPLE"

"If," asked the judge, "you were hungry, why didn't you steal food instead of cash?"

"Proud man," came the reply for everything I

Pride can cause us to try harder, dress better. Take the case of the "Stuck-Up" apple. A Jonathan, McIntosh, or Northern Spy can give an added taste treat if it proudly perches on a stick and gets "Stuck-Up" with Kraft's delicious caramel coating.

Here's a "get-to-know my kids" project that's simple... even for "pop."

A few apples, a bag of Kraft Caramels (we have both at the store) and you're in business. Have a friendly chat while you prepare and dip the apples in this creamy, caramel coating.

Kraft caramels have sticks in every bag, so buy a bag of caramels and a supply of apples today. Your youngsters will love 'em and... just between ourselves... most older "kids" like a chewy caramel apple too!

Have you reserved a turkey or chicken for that Thanksgiving treat? We guarantee the quality of every bird... order from our meat department.

Have written about "Family Gems" for next week, so stop around.
